COURT OF APPEAL
SUPREME COURT OF QUEENSLAND

CA NUMBER: 3595/13
Number : 928/13

Applicant : Peter Markan

AND

Defendant : Bar Association of Queensland

REPLY TO THE RESPONDENT ARGUMENTS

1. The lawyers for the Defendant chose to toe the 'official line' under pretext of "assisting the court' regarding the issue of the 'test for apprehensive bias' in relation to a trial judge selection.

2. Actually, such 'test' is not an uttering of an individual but collective wisdom as worked out, discussed and agreed on by the International community. People who do not have petty interests at stake but who look at issues from a wide perspective of benefit and significance for mankind.

3. Ignoring the international obligation in this matter puts in doubt all other promises undertaken by the Australian government on behalf of all people in this country. The evidence – the conduct of Queensland legal industry – ignorance and disrespect of basic human rights and International law – making it a pariah state among international community.

4. Ms Atkinson statement that she ignores the International law according to the 'usual practice' (hearing on 17.04.2013- line 44) is the clear admission that the attitude of disrespect, abuse and the culture of arrogance towards human rights is **THE OFFICIAL POLICY of Queensland judiciary**.

5. Who is that 'fair minded observer' that 'authorities' and Ms Atkinson have in mind? The answer is in her 'order' from 17.04.2013 in this matter line 49 – '**in my view**, no fair-minded observer…..'! Ooooh, so he is just a creation of her imagination !

6. Quite grotesque and arrogant proclamation **giving herself the ability to know what other people think**! Is it really 'fair' to make such statement without the support of any facts or evidence? Wouldn`it be reasonable to actually ask some lay people, what they think about this matter ; what about running a public poll?

7. Obviously Ms Atkinson would not like to take such a risk, therefore she prefers to make in effect an idiotic statement. By doing so she also shows great dishonesty as a human being and a judge because she is clearly a biased person in the matter where she has personal interest in the outcome.
